Lampu Lalu Lintas Solar Panel

[Call for Pricing](#)

Solar traffic signs have many uses. They can be used in manufacturing facilities, for pedestrian safety, stop and yield signs, vehicle directions, emergency instructions, parking safety and school zone safety.

These solar signs are designed for ultimate visibility so that seeing them is never an issue Your safety matters to us. Trust the signs that are being used for different applications around the world, from carpool lanes to traffic areas.

ALPEN STEEL SOLAR has created a family of solar powered safety signs designed to increase awareness of hazardous areas by providing increased sign visibility. Each solar powered sign is built with ultra-bright LED lights, immediately alerting attention to the solar safety sign. The solar sign lights are visible in all weather conditions, from bright sunlight to fog and rain.
